

Incorporating Imaging Software into Everyday Use

With the ever advancing progress of dental and medical imaging, the clinician is often left behind when it comes to training and education of the software. You're often left scratching your head wondering what tools to use, how to manipulate the image, and how to effectively diagnose from what is visible in the CT scan. Now you can master these critical skills!

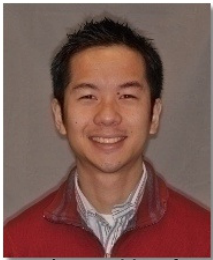

Learn the following course objectives:

- ◇ Assessing implant treatment candidacy
- ◇ How to capture screen images
- ◇ Communicate & transfer images to others
- ◇ Purpose for various imaging applications

◇ Make clinical diagnosis from CT imaging Properly use tools in various software

Armand Jusuf
Director of Guided Surgery and Imaging

Please RSVP no later than February 17th, 2012
Tuition-Free!

Credits-3 Hours worth of CE Credits

Date-Thursday, February 23rd, 2012

Location-nSequence Center for Advanced Dentistry

Duration- 5:30pm-8:30pm
